

EMISSION & POWER SOLUTIONS ANNOUNCES THE OPENING OF EUROPEAN OFFICE IN ZURICH AND HIRING OF ADDITIONAL EUROPEAN SALES REPRESENTATIVES

LONDON, 21 January 2010

Emission & Power Solutions, Plc (“EPS”, “the Company”), announced today that it has opened a new office in Zurich, Switzerland. The new office will be utilized by senior sales representatives who are focused on selling both the FX reactor and Nitrogen Oxide (NOx) Sensor technologies for the Company.

Erik Ulsteen, CEO & Chairman of EPS stated, “Based on the significant amount of demand we are seeing for our products, we deemed it necessary to open an additional office in Zurich as well hire additional senior sales representatives. We are highly encouraged by the positive reception our products are receiving in the market.”

About EPS:

EPS is a “clean tech” company that licenses, acquires, develops, deploys, and transfers technologies dedicated to improving fuel economy while also reducing environmentally harmful exhaust emissions. Using advanced fuel treatment devices, EPS has developed a proprietary multi-phase process utilizing engineered flow patterns in order to restructure fuel hydrocarbons. This increases fuel efficiency and produces a cleaner burn during the engine’s combustion cycle. EPS has a portfolio of technologies in production and development and continues to expand its patented product line.

EPS’ primary product is the FX Reactor In Line Device that reduces fuel consumption, increases horsepower, and significantly reduces emissions. The FX Reactor is an aftermarket apparatus that can be added directly into the fuel line of any diesel engine. EPS is also developing a Potentiometric Sensor that selectively detects and measures combustion gases, allowing for a further reduction in emissions and improved fuel efficiency. The third technology EPS is developing is an On Board Distillation System that vaporizes fuel in order to produce a cleaner engine start and reduce total hydrocarbon emissions.

EPS is a publicly listed company that trades on the Deutsche Börse under symbol EPI.
