Dear Bob:

I thought that I would drop you a note on the Fuel FX reactor that we tested on our 1999 International 9400 Semi-tractor truck with a series 60 Detroit engine. After the reactor was installed, it took 3-4 weeks to see any results. The first result the driver noticed was an increase in power. Shortly after, there was a continual increase in the fuel mileage, from 5.19% to 16.02%.

We are pleased with the result we found and I'm looking forward to doing business with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Stiernagle". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Kevin Stiernagle
